

Dear Friend:

You are cordially invited to participate in the first meeting of the BDCP Yolo Bypass Fishery Enhancement Planning Team. The meeting will be on Friday, June 10th at 9:00 a.m. at the Natural Resources Agency, 1416 Ninth Street, Room 1131. RSVP to Janet@JBEnviroComm.com by the close of business on Monday, June 6th.

The Planning Team will be supported by a Fish Technical Team, which will be convened specifically for this purpose. The FTT will have its first meeting in mid-June.

There are several documents attached that you will want to review prior to the meeting. These include:

1. Planning Team Roster. As you will see, the Planning Team was organized to provide as broad a representation of interests in the Bypass as possible, while keeping the number of participants to a manageable level. Please note that only one member from your organization will be able to participate at any one time; that individual is up to your discretion.

Although we cannot accommodate everyone who applied to be a part of the Yolo Bypass group, the meetings are open to all. If your name is not on the roster, we encourage you to attend and welcome your input. We will provide time on the agenda to hear your comments and concerns, however the bulk of the time will be reserved for working group discussion.

2. Planning Team Description. This document describes the purpose of the group and the general approach to be taken, including a general timeframe and meeting subjects. The timeline and topics may change if necessary.

3. Draft Agenda. Please review this draft agenda for the first meeting and come prepared to talk about each item.

Please email me at Karla.Nemeth@resources.ca.gov or call me at 916-651-7587 if you have any questions. I look forward to seeing you on the 10th.

Karla Nemeth
