

Dear Friend

You or your organization applied to participate in the Governance working group for the Bay Delta Conservation Plan. More people applied to serve on the working group than we have spaces. For that reason, I have attached a list of those who applied, and the interest group categories into which they fall.

Please consult with the other members of your interest group, and select representatives according to the following allocations. Please let me know who your interest group selected as quickly as possible, but no later than Tuesday.

Water exporters: Roger Patterson (MWD) and Laura King Moon (SWC) will serve. Please select 2 more

Environmental and fishing groups: Richard Roos Collins will serve. Please select 2 more.

Water agencies upstream of the Delta. Please select 2.

Delta counties and other agencies: Please select 3, including at least one person from a county

Due to intense interest in this working group, we cannot accommodate space for the “civic” groups that applied, but we welcome your input during appropriate times during the working group meeting. Individuals cannot serve on working groups.

We welcome everyone to attend the meetings of the working group. We will allow time on the agenda to hear your comments and concerns, but the bulk of the time will be reserved for working group discussion.

The first meeting of the working group will be on Thursday, June 9 at the Natural Resources Agency conference room on the 13<sup>th</sup> floor from 2 to 4 pm, but please leave 4-5 pm open on our calendar in case we wish to go beyond 4 pm. A redraft of Chapter 7 will be sent out shortly, and posted to the BDCP website.

Sincerely

Jerry Meral
