

1 **Terrestrial Resources Conservation Strategy**

2 [**Note to reviewers:** This document provides, within the outline of Chapter 3, the methods
3 and approach section for terrestrial resources with goals and objectives and
4 conservation measures that address terrestrial resources including natural communities
5 and covered wildlife and plant species.].

6 **Table of Contents**

7 [**Note to reviewers:** Headers in strikethrough are those sections that are not related to
8 terrestrial resources (i.e., sections related to aquatic communities and fish species) and
9 therefore no text is provided in this document. Also not provided are the monitoring and
10 adaptive management plans that can be found in other BDCP draft materials.]

11	Conservation Strategy	1
12	3.1 Introduction	1
13	3.2 Methods and Approach.....	1
14	3.2.1 Framework for the Conservation Strategy.....	1
15	3.2.1.1 The Importance of Adaptive Management and	
16	Monitoring	3
17	3.2.1.2 The Timing and Interrelatedness of	
18	Conservation Measures	4
19	3.2.2 The Logic Chain and Establishing Biological Goals	
20	and Objectives.....	5
21	3.2.2.1 The Logic Chain – How it Works.....	6
22	3.2.2.2 Logic Chain Questions and Associated	
23	Terminology.....	6
24	3.2.3 Identifying Conservation Zones.....	9
25	3.2.4 Developing the Aquatic Component of the	
26	Conservation Strategy	9
27	3.2.5 Developing the Terrestrial Component of the	
28	Conservation Strategy.....	10
29	3.2.5.1 Natural Community and Covered Species	
30	Associations	11
