

Potential Reorganization of Other Stressors Conservation Measures

Other Stressors Conservation Measures (Current):

- OSCM3 Methyl-Mercury Reduction
- OSCM4 Pesticide/ Herbicide Reduction
- OSCM5 Urban & Stormwater Run-off
- OSCM7 Deep Water Ship Channel – Low DO
- OSCM10 Recreational Boat Inspection
- OSCM11 Invasives Reduction and Rapid Response Team
- OSCM12 Zebra-Quagga Establishment Risk Reduction
- OSCM13 SAV/ FAV Removal
- OSCM16 Increase Enforcement on Illegal Harvest
- OSCM18 Hatchery and Genetic Management Plans
- OSCM20 Smelt Hatchery
- OSCM21 Non-Project Diversions

(Please note, we also propose to move OSCM22 No-Wake Zones into *Section 3.4.2 Physical Habitat Conservation Measures*)

Conditional Actions (move to *Section 3.5 Conditional Actions*):

- Conditional On Research Outcomes
 - OSCM1 Ammonia/um Reduction
 - OSCM2 Endocrine Disrupter Reduction
- Conditional on Fishing Regulations
 - OSCM14 Non-Native Fishing Regulations
 - OSCM17 Splittail Harvest Regulations
 - OSCM19 Mass Marking Hatchery Salmon

Potential Revival of Discarded Actions (as either full Conservation Measures or Conditional Actions):

- NNIS5 Fund an education and outreach position in CDFG Invasive Species Program
- NNIS11 Reduce predation at salvage release sites
- TOCO9 Fund pollution prevention programs for recreational boaters
- TOCO10 Fund the USFWS's pharmaceutical disposal education program
- TOCO11 Fund education and outreach for urban run-off and stormwater pollution prevention programs
- TOCO12 Rapid detection of and response to toxic contaminant events (*Note: If left in, this should be modified as a comprehensive bio-monitoring for toxics and water quality impairment*)
- OTWQ2 Managed seasonal wetlands - Low DO and mercury
- HARV2 Fund education and outreach to prevent illegal harvest

Other Discarded Actions:

- NNIS1 Fund the California Aquatic Invasive Species Management Plan
- NNIS2 Ballast water and hull fouling
- NNIS4 Recommend Hazard Analysis and Critical Control Points Plans
- TOCO6 Reassessment of pesticide labels and urban use reporting
- TOCO8 Coordinate with agencies regulating dredging

Potential Additional Actions:

- Targeted non-native predator control

DRAFT
