Previous habitat restoration efforts in the Delta have been largely unsuccessful. This project looks similar to those efforts. Why will this project be successful? In what ways is this project similar to previous unsuccessful efforts and in what ways is it different? What data from previous efforts are incorporated in the BDCP? What studies and experiments have been conducted to show that this plan will meet with success when similar past efforts have failed?

Please submit your comments at station 8 at this scoping meeting, or fold this form in half, seal with tape and mail to:
Ms. Delores Brown, Chief, Office of Environmental Compliance, Department of Water Resources, P. O. Box 942836, Sacramento, CA 94236.
