Bay Delta Conservation Plan
EIR/EIS—Public Scoping Meeting
Clarksburg Middle School
Thursday, March 26, 2009

Ladies and Gentlemen:

I have had an opportunity to speak to you before about the subject of this meeting and want to restate my concerns about the possible flooding of the Clarksburg Delta Area.

I am a director of the Clarksburg Fire Protection District and as such, owe the members of our district a duty to provide emergency medical and fire prevention services. Any limitations placed on the emergency access to any of the residents in our district would be detrimental to our goals of providing emergency services and would cause an immediate concern on our part to resist such limitations or restrictions.

We have 331 Farm units in our district with a population of approximately 1,300 residents and cover a geographic area of approximately 53 square miles. We average 52 medical aid calls a year or one each week. We cannot allow our citizens to go without our emergency medical support and request that you find a way to leave our community intact.

Thank you for your assistance in helping us serve our community.

Sincerely,

Harold C. (Hal) Shipley, Director
