

Letter	Comment #	Comment	Relation to Final EIR/EIS
Tehama-Colusa Canal Authority	1	These comments on the Final Environmental Impact Report/Environmental Impact Statement (Final EIR/EIS) for the Bay Delta Conservation Plan/California WaterFix Project (WaterFix or Project) are submitted on behalf of the Tehama-Colusa Canal Authority and water service contractors within its service area (collectively "TCCA"). (See Exhibit A for a list of commenting parties)	This section is background information. No new environmental material regarding the Final EIR/EIS is presented, and therefore no further consideration is required.
Tehama-Colusa Canal Authority	2	In addition to the comments made in the letter submitted today by the North State water Alliance, TCCA incorporates, herein, all of TCCA's previous comments in connection with the 2013 Draft Environmental Impact Report/Draft Environmental Impact Statement for the Bay Delta Conservation Plan (DEIR/DEIS) and the 2015 Partially Recirculated Draft Environmental I Impact Report/Supplemental I Draft Environmental Impact Statement for the California WaterFix (RDEIR/SDEIS). (See Exhibit B for a list of previously submitted comments.) Many of those comments have not been adequately responded to and the Final EIR/EIS is flawed in the ways described in those comment letters. For example, to the extent that the reduced deliveries to water service contractors within TCCA's service area are made in order to increase these supplies to users outside the Sacramento River watershed, the proposed project will significantly impact the water supply of entities within TCCA's service area. (See State Water Resources Control Bd. Cases (2006) 136 Cal.App.4th 674, 758.) Master Response 26 in the Final EIR/EIS fails to acknowledge that state law requires Reclamation to deliver the order to increase these supplies to users outside the Sacramento River watershed, the proposed project will significantly impact the water supply of entities within TCCA's service area. (See State Water Resources Control Bd. Cases (2006) 136 Cal.App.4th 674, 758.) Master Response 26 in the Final EIR/EIS fails to acknowledge that state law requires Reclamation to deliver the contractual allotment of water supply to water service contractors within TCCA's service area before it can deliver water outside the area of origin. (See id.; see also 43 U.S.C. § 383; California v. United States (1978) 438 U.S. 645, 677-79.)	This comment states that TCCA water users would be harmed by operation of CWF and that Master Response 26, regarding Area of Origin fails to acknowledge that state law requires Reclamation to deliver water to TCCA prior to delivering water outside the area of origin. This comment does not raise any substantive new environmental information or analysis that would result in a new significant environmental impact.
Tehama-Colusa Canal Authority	3	Finally, TCCA incorporates evidence submitted to the State Water Resources Control Board (SWRCB) in connection with the water right change petition filed by the Department of Water Resources (DWR) and the Bureau of Reclamation. (See Exhibit C for a list of all incorporated evidence.) DWR and Reclamation have stated that future operations of the proposed project will be "guided by the outcome" of the SWRCB proceedings. Master Response 28 (Final EIR/EIS, Vol. II, 1-262.) As a result, the evidence submitted by TCCA to the SWRCB regarding injury to legal users of water resulting from the Project is relevant to future operations of the project. For example, the SWRCB evidence reveals impacts to TCCA's water supplies that have not been disclosed or adequately analyzed.	This comment indicates that SWRCB evidence of harm to TCCA is not included in the Final EIR/EIS. See Section 4, State Water Board Change Petition Process, Developments after Publication of the Proposed Final Environmental Impact Report, for discussion on State Water Resources Control Board hearing materials.
Tehama-Colusa Canal Authority	ATT 1	Exhibit A: List of commenting parties	This is a list of commenting parties on the Final EIR/EIS. This attachment does not raise any environmental issue related to the Final EIR/EIS. This attachment does not raise any substantive new environmental information or analysis that was not previously addressed in the Final EIR/S. See Section 4, State Water Board Change Petition Process, Developments after Publication of the Proposed Final Environmental Impact Report, for discussion on State Water Resources Control Board hearing materials.
Tehama-Colusa Canal	ATT 2	Exhibit B: List of Previous Comment Letters	This is a list of comment letters previously submitted and responded to. This

Letter	Comment #	Comment	Relation to Final EIR/EIS
Authority			attachment does not raise any substantive new environmental issues that were not previously addressed in Volume 2, response to comment letter 2627 and comment letter 1683 of the Final EIR/S.
Tehama-Colusa Canal Authority	ATT 3	Exhibit C: List of State Water Resources Control Board Evidence	This is a table containing a list of State Water Resource Control Board Evidence. This attachment does not raise any environmental issue related to the Final EIR/EIS. See Section 4, State Water Board Change Petition Process, Developments after Publication of the Proposed Final Environmental Impact Report, for discussion on State Water Recourses Control Board hearing materials.
Tehama-Colusa Canal Authority	ATT 4	Protest-Petition	This attachment is TCCA entities' protest to DWR's water rights change petition and relates to the hearing proceedings regarding petition filed by the Department of Water Resources and U.S. Bureau of Reclamation requesting change in point of diversion for the California WaterFix. See Section 4, State Water Board Change Petition Process, Developments after Publication of the Proposed Final Environmental Impact Report, for discussion on State Water Recourses Control Board hearing materials.
Tehama-Colusa Canal Authority	ATT 5	Testimony of Jeffrey P. Sutton on behalf of Tehama-Colusa Canal Authority and Water Service Contractors Within its Service Area	This attachment is Exhibit TCCA-1 presented for the hearing proceedings regarding petition filed by the Department of Water Resources and U.S. Bureau of Reclamation requesting change in point of diversion for the California WaterFix. See Section 4, State Water Board Change Petition Process, Developments after Publication of the Proposed Final Environmental Impact Report, for discussion on State Water Recourses Control Board hearing materials.
Tehama-Colusa Canal Authority	ATT 6	Tehama-Colusa Canal Authority 1996 Amended Joint Powers Agreement	This attachment is Exhibit TCCA-2 presented for the hearing proceedings regarding petition filed by the Department of Water Resources and U.S. Bureau of Reclamation requesting change in point of diversion for the California WaterFix. See Section 4, State Water Board Change Petition Process, Developments after Publication of the Proposed Final Environmental Impact Report, for discussion on State Water Recourses Control Board hearing materials.
Tehama-Colusa Canal Authority	ATT 7	Contract between the County of Colusa and 4M Water District - February 25, 2005	This attachment is Exhibit TCCA-5 presented for the hearing proceedings regarding petition filed by the Department of Water Resources and U.S. Bureau of Reclamation requesting change in point of diversion for the California WaterFix. See Section 4, State Water Board Change Petition Process, Developments after Publication of the Proposed Final Environmental Impact Report, for discussion on State Water Recourses Control Board hearing materials.
Tehama-Colusa Canal Authority	ATT 8	Long-Term Renewal Contract Between the United States and Colusa County Water District - February 25, 2005	This attachment is Exhibit TCCA-6 presented for the hearing proceedings regarding petition filed by the Department of Water Resources and U.S. Bureau of Reclamation requesting change in point of diversion for the California WaterFix. See Section 4, State Water Board Change Petition Process, Developments after Publication of the Proposed Final Environmental Impact Report, for discussion on State Water Recourses Control Board hearing materials.
Tehama-Colusa Canal Authority	ATT 9	Subcontract between the County of Colusa and the Colusa County Water District - February 25, 2005	This attachment is Exhibit TCCA-7 presented for the hearing proceedings regarding petition filed by the Department of Water Resources and U.S. Bureau of Reclamation requesting change in point of diversion for the California WaterFix. See Section 4, State Water Board Change Petition Process, Developments after Publication of the Proposed
