

In-Delta Facilities

Conveyance WG recommendations on in-Delta facilities for Near-Term through-Delta conveyance and possibly as part of Long-Term dual conveyance (April 21, 2009 meeting):

- 2-Gate Project – move forward with 2-Gate Project as part of the Near-Term operations evaluation.
- 3-Mile Slough Gate – Let the DWR Frank's Tract EIR evaluation 3-Mile Slough Gate and other alternatives to the Franks Tract Project.
- Isolated Old River – consider and continue to evaluate Isolated Old River as it relates to South Delta habitat restoration conservation measures as a possible part of Long-Term
- South Delta Improvement Program (SDIP) – do not include in BDCP
- Conveyance Improvements on Middle River (Levee setbacks and channel dredging) - do not include in BDCP
