Your input on the BDCP EIR/EIS is greatly appreciated. Please write your comments below, including comments on the extent of the action, range of alternatives, methodologies for impact analysis, types of impacts to evaluate, and possible mitigation concepts. Comments will be accepted until close of business on May 14, 2009.

Please consider intakes that are not adjacent from the Pocket Area. 2. The impact on the Pocket Area regarding noise, quality of life, aesthetics, light & pollution. 3. Determine how the beauty of the river can be maintained without turning the area adjacent to the Pocket into an industrial looking area. 4. Determine how to maintain the Delta without destroying the river area through Sacramento. 5. Will alternatives that include reducing flows to the CVP pumps be considered. 2. Will flood protection be part of this process? 6. Develop a 3D analysis to evaluate and consider alternatives that do not involve intakes from areas across from the Pocket Area.
