The Honorable Jerry Brown
Governor of California
State Capital Building
Sacramento, CA 95814

RE: Support for Bay Delta Conservation Plan

Dear Governor Brown:

The Hemet/San Jacinto Valley Regional Chamber of Commerce would like to express its support of the Bay Delta Conservation Plan process and the proposed twin-tunnel, 9,000 cubic feet per second preferred project alternative.

As a forward-thinking organization, we understand the role that a safe and reliable water supplies plays in our communities. As state and community leaders, we must do all that we can to ensure that our citizens will continue to have access to the vital water supply that will help sustain our lifestyle and economy.

Our organization has full confidence that the environmental efforts outlined in the BDCP process will allow the myriad fish and wildlife species in the fragile Delta ecosystem to thrive, while also improving our water supply.

The BDCP is arguably one of the most important infrastructure improvement projects that our state will undertake in our lifetimes. Inaction is both unacceptable and irresponsible, and we have full confidence that this project will benefit all Californians by helping to guarantee a safe and reliable water supply for us all.

On behalf of the Hemet/San Jacinto Valley Regional Chamber of Commerce, we fully support the BDCP and appreciate your continued efforts to move this process forward.

Sincerely,

Andy Anderson
Interim President/CEO

C: Eastern Municipal Water District
