Re: EIR/EIS Scoping Comment
Bay Delta Conservation Plan ("BDCP")

Dear Ms. Brown:

In accord with my email to you on May 31st, this is a further scoping comment and question submitted for analysis in connection with the BDCP EIR/EIS.

What are the impacts on the "Farmland of Local Importance" identified by SACOG, the Sacramento Area Council of Governments, caused by the project envisioned by the BDCP?

If you have any questions, please do not hesitate to contact me. My personal cell phone is: (916) 204-9097.

Very truly yours,
North Delta CARES

Re: EIR/EIS Scoping Comment
Bay Delta Conservation Plan (“BCP”)

Dear Ms. Brown:

In accord with my email to you on May 31st, this is a further scoping comment and question submitted for analysis in connection with the BCP EIR/EIS.

How are the analysis, data, and conclusions of scientists who believe world and sea surface temperatures (e.g., Loehle & McCulloch, 2008) naturally change up and down over time consistent with the assumption that sea levels will rise thereby prompting a need for further flood protection in the Delta?

If you have any questions, please do not hesitate to contact me. My personal cell phone is: (916) 204-9097.

Very truly yours,
North Delta CARES
