Subject: Stop the California WaterFix - Review Alternatives That Will Protect the Delta

Dear BDCP/California WaterFix Comments,

Dear Resources Agency,

The water resources we have now are oversubscribed, and the ecosystem always gets the short end of the stick. Our future water resources will be diminishing as climate change continues. We need fundamental and radical changes in the way water is managed, and we need to prioritize the ecosystem. The Delta tunnels plan is old-school thinking.

The California WaterFix will lead to the destruction of the Delta.

Your DEIR/DEIS is flawed because it does not take into account ways to reduce the dependence on the Delta by increasing water independence locally.

Please stop the California WaterFix, and review more alternatives that will actually protect the Delta.

Sincerely,

Howard

Subject: Stop the California WaterFix - Review Alternatives That Will Protect the Delta

Dear BDCP/California WaterFix Comments,

Dear Resources Agency,

Our first obligation with California's water is to protect the natural landscapes and life forms that were here first. Next is to consider the needs of people. Only then should farming and corporate interests be considered. The California WaterFix will lead to the destruction of the Delta.

Your DEIR/DEIS is flawed because it does not take into account ways to reduce the dependence on the Delta by increasing water independence locally.

Please stop the California WaterFix, and review more alternatives that will actually protect the Delta.

Sincerely,

Allen

Subject: Stop the California WaterFix - Review Alternatives That Will Protect the Delta

Dear BDCP/California WaterFix Comments,

Dear Resources Agency,

The difference between the new tunnels and the old idea of Periferal Canal is that the tunnels cost more..

The California WaterFix will lead to the destruction of the Delta.

A better WaterFix would be to buy-out the Westland farmers and let their land be fallow.or grazed.

Your DEIR/DEIS is flawed because it does not take into account ways to reduce the dependence on the Delta by increasing water independence locally.

Please stop the California WaterFix, and review more alternatives that will actually protect the Delta.

Sincerely,

Bowers
