Public Draft
2012 Central Valley Flood Protection Plan

Yolo Basin Fish Passage Working Group

February 10, 2012

California Department of Water Resources

http://www.water.ca.gov/cvfmp/documents.cfm
http://cvfpb.ca.gov/CVFPP/index.cfm
Focuses on lands protected by facilities of the State Plan of Flood Control

Addresses major flood management reservoirs and local facilities that effect the operation of the SPFC

Coordinates with other major flood management efforts and related resources
- The 2012 CVFPP is a descriptive document
- It is supported by data and analyses conducted at a reconnaissance level
- Follow-on feasibility studies, environmental reviews, and designs will be needed to implement on-the-ground projects consistent with the 2012 CVFPP
Systemwide Perspective

- Considers the Central Valley flood system as a whole
- Focuses on State Plan of Flood Control
- Recognizes State’s fundamental interests
  - Public safety
  - Environmental stewardship
  - Economic stability
State Systemwide Investment Approach

- Incorporates aspects of each of the preliminary approaches
- Physical elements
  - Regional Improvements
    - Urban
    - Small Community
    - Rural-Agricultural
  - System Improvements
- Ecosystem restoration opportunities integrated
- Policies, guidance, and implementation strategies
Ecosystem restoration and enhancement opportunities are integrated with SSIA elements.

**Conservation Framework**
- Describes floodway ecosystem conditions and trends.
- Focuses on promoting ecosystem functions and multi-benefit projects in the context of integrated flood management.
- Previews the long-term Central Valley Flood System Conservation Strategy.
SSIA Benefits Highlights

- 67% overall reduction in expected annual flood damages
- Construction to increase economic output by $900 million and generate over 6,500 jobs annually
- Avoided business losses to increase long-term economic output by over $100 million
- 49% reduction in life risk
- 10,000 acres of new habitat and 25,000 acres of habitat-compatible crops
- Sustainable rural-agricultural lifestyle
- Resiliency and adaptability to future changes
## Proposed Adoption Process Timeline
